

TREE MASK

Materials:

1/2" or 3/8" thick EVA foam

1/8" craft foam

Elastic

Tools:

Hot Knife (lascutter?)

Dremel with medium sanding disc

Heat Gun

Glue Gun

1

Use pen to outline mask on EVA foam with template. Cut out EVA foam mask with hot knife (or laser cutter).

2

Cut texture with hot knife and/or Dremel with medium sized sanding disc.

4

Glue gun leaves and strap to mask.

3

Heat gun contour to mask. Heat gun leaves, and fold them length wise as they cool.

5

Add paint in corners and edges for depth.
